

SEXUAL Involvement Between a Health Care Professional and a Client

Association québécoise
Plaidoyer-Victimes

AN INAPPROPRIATE BEHAVIOUR A SEXUAL ASSAULT A CRIME

A flyer and a guide
which aim at:

- » breaking the taboos regarding sexual assaults perpetrated by health care professionals
- » allowing victims to recognize and identify the sexual assault they have experienced
- » identifying the warning signs of sexual abuse as well as behaviours of a sexual nature
- » undoing sexist myths and prejudices towards the victims
- » offering victims with informations, resources and possible ways of action
- » giving health care practitioners, their professional orders and the government a sense of responsibility regarding this issue
- » replacing this type of aggression in the broader context of the violence perpetrated against women

A flyer and a guide for

- » victims and their relatives
- » people using health care services
- » people consulting and requiring the support of health care professionals
- » health care practitioners, their professional orders and the government
- » professionals in position of authority and/or decision makers

A document produced and presented by the Association québécoise Plaidoyer-Victimes with the financial support of the Department of Justice Canada and the ministère de la Justice du Québec
